PROFILE

As a dedicated SQA Engineer, my objective is to leverage my expertise in software quality assurance to ensure the delivery of reliable and high-performing software solutions. I completed my degree as a software engineer from Usman Institute of Technology (UIT) affiliated with NED University, I am committed to upholding the highest standards of software quality and driving continuous improvement in the development process. My goal is to collaborate with a talented team of professionals in implementing effective testing strategies, conducting comprehensive test plans, and identifying and resolving software defects. By applying my attention to detail, analytical mindset, and excellent problem-solving skills, I aim to contribute to the development of robust and user-friendly software applications that meet the needs of end-users and exceed industry standards.

WORK EXPERIENCE

ReactJS Developer & SQA

Finosys (Private) Limited — December 2022 - Present

- Hired as a JS developer and SQA engineer.
- Perform Testing on SBS Project - "Smart Business Solution".
